

EUCO-600 Series Product Notice: Expanded 600W Cable Type

Delta launched the EUCO-600 Series of aluminum extrusions with waterproof connectors in June 2024, expanding options for stadium lighting. This series features a wide input and output voltage range along with waterproof and dustproof capabilities, making it a reliable choice for various applications. It has been well received in the market and is widely used in stadium lighting, industrial lighting, high-mast lighting, horticultural lighting, and other demanding environments.

To provide customers with a more comprehensive product portfolio, Delta has introduced a new independent waterproof cable version to the series. This addition offers greater flexibility for different lighting design requirements, making it easier for customers to integrate the product into their setups.

	Waterproof Connector	New – Waterproof Cable (EU Version)	New – Waterproof Cable (Global Version)
Model	EUCO-600200GDA/GIA	EUCO-600200GDD/GID	LNA-600A20AFCFA/FCDA
			
Input	Waterproof connector (Wieland RST 20i3F S2)	Cable (UL SOOW 17 AWG)	Cable (UL SOOW 17 AWG)
Output	Waterproof connector (Amphenol CC-03PMFS)	Cable (UL SOOW 17 AWG)	Cable (UL SOOW 17 AWG)
Dimming	Waterproof connector (Amphenol AD-03PMMS)	Cable (UL PLTC 22AWG)	Cable (UL PLTC 22AWG)
Safety	CE/ENEC/RCM/UKCA	CE/ENEC/RCM/UKCA	CE/ENEC/RCM/UKCA/CCC
Effective Date	2024/06/21	2025/03/01	2025/03/01
