CliQ II 3-Phase DIN Rail Power Supply Now Available with 240W Output Power

DRP024V240W3B□ HIGHLIGHTS & FEATURES

- ▲ Universal AC input voltage range 3 x 320-600Vac without power de-rating
- ▲ Able to operate at 2 x 360-600Vac without power de-rating even when one phase input is lost
- ▲ Power Boost of 150% for 5 seconds
- ▲ Conforms to harmonic current IEC/EN 61000-3-2, Class A
- ▲ Conformal coating on PCBA to protect against chemical and dust pollutants
- ▲ Hazardous Locations approval to ATEX and Class I, Div 2 available as option

Delta Electronics extends the 3-phase models for its CliQ II DIN Rail Power Supply series with a 240W product offering 24V output voltage. The DRP024V240W3B□ is encased in a sturdy and non-corrosive full aluminium body that can withstand shock (30G) and vibration (3G) according to IEC 60068-2 standard and operates over a wide temperature range from -25°C to +75°C.

The excellent design enables operation over a wide input range with 3-phase at 320Vac to 600Vac or 2-phase at 360Vac to 600Vac, with no power de-rating throughout the entire range. The 150% Power Boost duration has now increased to 5 seconds as compared to 3 seconds with the first generation of CliQ. Like the rest of the models in the CliQ family, conformal coating is applied on the PCBAs to protect against dust and chemical pollutants. Hazardous Locations approval to ATEX and Class I, Div 2 are available as options as well.

Safety Standards

Options:

AVAILABLE FOR SHIPMENT FROM JUNE 2013 ONWARDS.

New models are introduced on a regular basis. For more information or enquiries, please do not hesitate to contact your local Delta Electronics distributor or visit www.DeltaPSU.com.

Upcoming Events

- **PackPlus South 2013**
Location: Hyderabad, India
Dates: 5 – 8 July 2013
- **Techno-Frontier 2013**
Location: Tokyo, Japan
Dates: 17 – 19 July 2013
- **Automation 2013**
Location: Mumbai, India
Dates: 23 – 26 September 2013
